DETAILED ACTION

Response to Amendment

1. Applicant's amendment and accompanying remarks filed 03/10/04 have been entered. Claims 1,5, and 13 have been amended and claim 4 has been canceled as requested. Specifically, Applicant amended claim 1 to include the previously allowed limitations of claim 4. As such, the rejections of claims 1,3,7,9 and 14 rejected under 35 U.S.C. 102 (e) as being anticipated by Banks, US 5,715,5366 and the rejections of claims 11 and 12 rejected under 35 U.S.C. 103(a) as being unpatentable over Banks, US 5,715,536 as set forth in sections 4 and 6 respectively of the last Office Action are hereby withdrawn. Applicant's amendments have now been found to patently distinguish pending claims 1-3, and 5-14 over the prior art of record for reasons set forth herein below.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: 1-3, and 5-14. The prior art of Banks fails to teach or fairly suggest a conducting fabric edged with a lattice fabric comprising conductive filaments wherein an electronic circuit is interconnected through a conductor to said lattice fabric, which is a parallel resonator at a predetermined cutting frequency and predetermined resonance frequency and is operable to dispel and electromagnetic signal. An updated art search did not produce any new substantial art for which to base a rejection on and presently no motivation exists to combine references to form an obvious type rejection.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lynda M Salvatore whose telephone number is 571-272-1482. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Terrel Morris can be reached on 571-272-1482. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
